RE: **Gus Anselmi Scholarship**

It is time to submit names for the Gus Anselmi Scholarship.

This \$1,500 scholarship, is for students in your program who have successfully completed one academic year and will be starting their second year in either Civil Engineering Technology or Construction Technology in the fall of 2010. If the student is part time, they need to have sufficient credits to be considered a second year student. The award is based on your recommendation, and we require a letter stating how the student became interested in heavy construction, i.e., highway, bridges, dams and utilities and a copy of their transcript. Please have all applications returned by April 15th. You can nominate more than one candidate.

Thanks for your cooperation.
