

## ECC MESA Club membership application

The MESA Club at ECC is for students who are majoring in STEM disciplines (Division of Engineering Technologies & Computer Science; Division of Math & Physics; or Division of Biology & Chemistry). The goal is to promote awareness and appreciation of STEM (Science, Technology, Engineering, and Mathematics) areas; to create a cohort to allow students to study as a unit; to stimulate interest in scholastic achievement while enhancing personal understanding.

If you are interested in joining MESA Club, please fill up the following application and drop it off to MESA coordinator's desk at Room T206 or give it to one of the Club officers.

|                                                       |             |
|-------------------------------------------------------|-------------|
| Name:                                                 | Student ID: |
| Major:                                                | Phone:      |
| Email (Please print as clearly as possible):          |             |
| Expected graduation date:                             |             |
| List the Universities interested in transferring to:  |             |
| List the activities you suggest to have in MESA Club: |             |
